

PoWER-UWIRA

Title	Impact of Untreated Wastewater on Natural Water Bodies: Integrated Risk Assessment
Funding Agency	The Dutch Government through Partnership for Water Education and Research (PoWER)
Project Period	2009-2013
Objectives	<ul style="list-style-type: none">• To develop a methodology for an integrated assessment of risks for public health, caused by the presence of selected micro-pollutants, originating from wastewater and septage, in surface water, in irrigation water, in groundwater and ultimately in drinking water based on a mechanistic understanding of water flow and transport processes in an arid environment.
partners	<ul style="list-style-type: none">- An- Najah National University- UNESCO-IHE Institute for Water Education, Netherlands
Project Outputs	In Progress
